You don't need an account or any personal info to quickly convert PDFs to Word documents without sign-up. Convert your files in seconds and for free. We keep your privacy safe with secure connections, GDPR compliance, and ISO/IEC 27001 certification. All files are deleted from our servers after one hour. You can use our tool on Mac, Windows, or Linux computers, as well as iOS and Android smartphones. Our desktop app lets you convert PDFs to Microsoft Word format offline. We've partnered with top-notch converters for reliable functionality and quality results. With our Optical Character Recognition (OCR) technology, you can turn scanned PDFs into editable Word documents. Try out this Pro feature and other tools with a 7-day free trial! I agree with Nitro's Privacy Policy and represent that only my info is in the converted documents. The Nitro software allows for the conversion of various file types, including PDFs, into other formats such as Word docs, Excel sheets, PowerPoint presentations, or even images like PNG or JPG. This includes rich text format (RTF) and HTML texts. It has a 14-day free trial period with no locked features and no need for a credit card. The company's privacy policy is acknowledged, and users represent that only their information is included in converted documents and give consent to the processing of such data. Nitro offers a range of productivity tools under its platform, including PDF converter services that allow merging and splitting PDFs, compressing and rotating them, as well as deleting specific pages. The software employs 256-bit SSL Encryption for security, ensuring files are deleted after conversion with no residual copies. Users can access these tools on Mac, Windows, or Linux machines, offering flexibility in usage. A free trial or subscription (monthly, annually, or lifetime) allows unlimited access to all Nitro tools, including unlimited document sizes and the ability to convert multiple documents at once.
